

# GURR ERA OP TAKE ACTION

CALL THE CLIMATE CHANGE MINISTER

Here's a guide for what you can say

Hi my name is ..... from the ..... electorate. I am ringing you to tell you I am very concerned about the impact of climate change and the rising sea levels on the beautiful Zenadh Kes Torres Strait Islands and the whole of this beautiful and diverse country.

I urge you to listen to the Traditional Owners of these islands and work with them to mitigate the impacts of climate change on their homes. Can you please prioritise the mitigation and adaptation for these islands in budget conversations.
